

Product Name: UV ink ELS-170 CYAN

SDS No. 037-U348686

First issue: 2025/03/06

Revised:

Safety Data Sheets

1. Identification

Product Name : UV ink ELS-170 CYAN

Order No. : ELS170-C-BA

General Use : Ink jet printing ink

Product Description : UV Inkjet Ink

SDS Number : 037-U348686

Manufacture

Company Name : Mimaki Engineering Co., Ltd.

Address : 2182-3 Shigeno-otsu, Tomi-shi, Nagano 389-0512 JAPAN

Telephone No. : +81-268-64-2413

Importer / Distributor Established in USA

Company Name : MIMAKI USA, INC.

Address : 4851 Thurmon Tanner Parkway, STE 100 Flowery Branch, GA
30542, U.S.A.

Telephone No. : +1-678-730-0170

Emergency Telephone : +1 866 928 0789 (within United States only, Toll free)
No. +1 215 207 0061

2. Hazards Identification

[GHS Classification]

Physical Hazards

Flammable Liquids : Not classified

Health Hazards

Acute Toxicity – Oral : Category 4

Skin Corrosion / Irritation : Category 2

Eye Damage / Irritation : Category 2A

Sensitization – Skin : Category 1

Specific Target Organ Toxicity : Category 1 (Liver, respiratory tract)
(Repeated Exposure)

Environmental Hazards

Hazardous to the Aquatic : Category 2

Environment - Acute Hazard

Safety Data Sheets

Hazardous to the Aquatic : Category 2

Environment - Long Term Hazard

The above list does not include category being non-classifiable or not-applicable.

[GHS Label Elements]

Symbol

Signal Word

Danger

Hazard Statements

H302 Harmful if swallowed.

H315 Causes skin irritation

H319 Cause serious eye irritation

H317 May cause an allergic skin reaction

H372 Causes damage to organs through prolonged or repeated exposure
(Liver, respiratory tract)

H411 Toxic to aquatic life with long lasting effects

Precautionary Statements

[Prevention]

P260 Do not breathe gas/mist.

P264 Wash hands and eyes thoroughly after handling.

P270 Do not eat, drink or smoke when using this product.

P272 Contaminated work clothing should not be allowed out of the workplace.

P280 Wear protective gloves/protective clothing/eye protection/face protection.

P273 Avoid release to the environment.

[Response]

P301+P312 IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell.

P301+P330 IF SWALLOWED: Rinse mouth.

P302+P352 IF ON SKIN: Wash with plenty of soap and water.

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P308+P313 IF exposed or concerned: Get medical advice/attention.

P314 Get medical advice/attention if you feel unwell.

P333+P313 If skin irritation or rash occurs: Get medical advice/attention.

P337+P313 If eye irritation persists: Get medical advice/attention.

P362+P364 Take off contaminated clothing and wash before reuse.

P391 Collect spillage.

[Disposal]

P501 Dispose of contents/container in accordance with

local/regional/national/international regulation (to be specified).

[Other Information]

Hazards not otherwise classified (HNOC)

Not Applicable

Safety Data Sheets

3. Composition / Information on Ingredients

Common name and synonyms: No data available

Pure substance/mixture: Mixture

| No | Chemical Name | Wt% | CAS No. |
|----|---|---------|-------------|
| 1 | (5-ethyl-1,3-dioxan-5-yl)methyl acrylate | 50-60 | 66492-51-1 |
| 2 | 1-vinylhexahydro-2H-azepin-2-one | 10-20 | 2235-00-9 |
| 3 | 2-(2-ethoxyethoxy)ethyl acrylate | 10-20 | 7328-17-8 |
| 4 | Propylidynetrimethanol, ethoxylated, esters with acrylic acid | 3-5 | 28961-43-5 |
| 5 | phenyl bis(2,4,6-trimethylbenzoyl)-phosphine oxide | 1-3 | 162881-26-7 |
| 6 | hexamethylene diacrylate | 0.1-0.3 | 13048-33-4 |

4. First Aid Measures

[First aid measures]

Eye Contact

: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention

Inhalation

: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention following exposure or if feeling unwell. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.

Skin Contact

: Wash with plenty of soap and water. Remove contaminated clothing and shoes. Wash contaminated clothing thoroughly with water

Safety Data Sheets

before removing it, or wear gloves. Continue to rinse for at least 10 minutes. Get medical attention. In the event of any complaints or symptoms, avoid further exposure. Wash clothing before reuse. Clean shoes thoroughly before reuse.

Ingestion : Wash out mouth with water. Remove dentures if any. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention. If necessary, call a poison center or physician. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

[Most important symptoms and effects, both acute and delayed]

[Potential acute health effects]

Eye contact : Causes serious eye irritation.
Inhalation : No known significant effects or critical hazards.
Skin contact : Causes skin irritation. May cause an allergic skin reaction.
Ingestion : Harmful if swallowed.

[Over-exposure signs/symptoms]

Eye contact : Adverse symptoms may include the following:
pain or irritation
watering
redness
Inhalation : No specific data.
Skin contact : Adverse symptoms may include the following:
irritation
redness
Ingestion : No specific data.

[Indication of any immediate medical attention and special treatment needed]

Note To Physician : In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.
Specific treatments : No specific treatment.
Protection of first-aiders : No action shall be taken involving any personal risk or without

Safety Data Sheets

suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

5. Fire Fighting Measures

| | |
|--|---|
| Extinguishing Media | : Use CO ₂ , dry chemical, or foam. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. |
| Unsuitable Extinguishing Media | : None known. |
| Specific hazards arising from the chemical | : In a fire or if heated, a pressure increase will occur and the container may burst. |
| Hazardous thermal decomposition products | : Decomposition products may include the following materials: carbon dioxide carbon monoxide nitrogen oxides phosphorus oxides metal oxide/oxides |
| Special protective actions for fire-fighters | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. |
| Special protective equipment for fire-fighters | : Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear. Use personal protection equipment. |

6. Accidental Release Measures

[Personal precautions, protective equipment and emergency procedures]

| | |
|-----------------------------|---|
| For non-emergency personnel | : No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Do not breathe vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment. |
|-----------------------------|---|

Safety Data Sheets

| | |
|--|---|
| For emergency responders | : If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For nonemergency personnel". |
| Environmental precautions | : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). |
| [Methods and material for containment and cleaning up] | |
| Small spill | : Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor. |
| Large spill | : Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |

7. Handling and Storage

[Precautions for safe handling]

| | |
|---------------------|--|
| Protective measures | : Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Avoid exposure - obtain special instructions before use. Avoid exposure during pregnancy. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not breathe vapor or mist. Do not ingest. If during normal use the material presents a respiratory hazard, use only with adequate ventilation or wear appropriate respirator. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers |
|---------------------|--|

Safety Data Sheets

- retain product residue and can be hazardous. Do not reuse container.
- Advice on general occupational hygiene : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
- Conditions for safe storage, including any incompatibilities : Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

8. Exposure Controls / Personal Protection

[Control parameters]

Occupational exposure limits

| Chemical Name | Category |
|--------------------------|--|
| hexamethylene diacrylate | OARS WEEL (United States, 4/2022). Skin sensitizer. TWA: 1 mg/m ³ 8 hours. |

- Appropriate engineering controls : If user operations generate dust, fumes, gas, vapor or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.
- Environmental exposure controls : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

[Individual protection measures, such as personal protective equipment]

- Respiratory Protection : Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators

Safety Data Sheets

Glove

Recommendations

must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.

Eye /Face

Protection

Safety

: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles and/ or face shield. If inhalation hazards exist, a full-face respirator may be required instead.

Skin Protection

: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

General Hygiene

Considerations

: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

9. Physical and Chemical Properties

[Information on basic physical and chemical properties]

Safety Data Sheets

| | | |
|------------------------------|------------------|---|
| Appearance | - Physical State | : liquid |
| | - Color | : Indigo blue |
| Odor | | : Characteristic odor |
| Odor Threshold | | : No data available |
| pH | | : No data available |
| Melting point/freezing point | | : No data available |
| Boiling point/boiling range | | : No data available |
| Flash point | | : 105 °C / 221 °F (Estimated from the ingredient flash point) |
| Evaporation rate | | : No data available |
| Flammability (solid, gas) | | : No data available |
| Flammability Limits in Air | | |
| Upper flammability limits | | : No data available |
| Lower flammability limit | | : No data available |
| Vapor Pressure | | : No data available |
| Vapor density | | : No data available |
| Specific gravity | | : 1.0-1.1 |
| Solubility(ies) | | : Immiscible in water |
| Partition coefficient | | : No data available |
| Autoignition temperature | | : No data available |
| Decomposition temperature | | : No data available |
| Kinematic viscosity | | : No data available |
| Dynamic viscosity | | : 13-18 mPa·s(25 deg.C) |
| [Other Information] | | |
| Molecular weight | | : No data available |
| Explosive properties | | : No data available |
| Oxidizing properties | | : No data available |
| Softening point | | : No data available |
| VOC Content (%) | | : No data available |
| Density | | : No data available |
| Bulk density | | : No data available |

10. Stability and Reactivity

| | |
|--------------------|--|
| Reactivity | : No information available. |
| Chemical Stability | : Stable under the normal storage and use. |

Safety Data Sheets

Possibility of Hazardous : No information available.

Reactions

Hazardous polymerization : None under normal processing.

Conditions to Avoid : No information available.

Incompatible Materials : No information available.

Hazardous Decomposition : Under normal conditions of storage and use, hazardous Products decomposition products should not be produced.

11. Toxicological Information

[Information on likely routes of exposure]

Acute toxicity : Not available.

Irritation/Corrosion : Not available.

Sensitization : Not available.

| Chemical Name | Category | Route of exposure |
|---|-------------|-------------------|
| (5-ethyl-1,3-dioxan-5-yl)methyl acrylate | Category 1B | SKIN |
| 1-vinylhexahydro-2H-azepin-2-one | Category 1B | SKIN |
| 2-(2-ethoxyethoxy)ethyl acrylate | Category 1A | SKIN |
| Propylidynetrimethanol, ethoxylated, esters with acrylic acid | Category 1 | SKIN |
| phenyl bis(2,4,6-trimethylbenzoyl)-phosphine oxide | Category 1A | SKIN |
| hexamethylene diacrylate | Category 1 | SKIN |

Mutagenicity : Not available.

Carcinogenicity : Not available.

Reproductive toxicity : Not available.

Specific target organ toxicity (single exposure) : Not available.

Specific target organ toxicity(repeated exposure)

| Chemical Name | Category | Route of exposure | Target organs |
|----------------------------------|------------|-------------------|--------------------------|
| 1-vinylhexahydro-2H-azepin-2-one | Category 1 | - | liver, respiratory tract |

Aspiration hazard : Not available.

Potential acute health effects

Eye contact : Causes serious eye damage.

Inhalation : No known significant effects or critical hazards.

Skin contact : Causes skin irritation. May cause an allergic

Safety Data Sheets

skin reaction.

Ingestion : Harmful if swallowed.

Symptoms related to the physical, chemical and toxicological characteristics

Eye contact : Adverse symptoms may include the following:
Pain or irritation
watering
redness

Inhalation : No specific data

Skin contact : Adverse symptoms may include the following:
irritation
redness

Ingestion : No specific data

Delayed and immediate effects and also chronic effects from short and long term exposure

Short term exposure

Potential immediate effects : Not available.

Potential delayed effects : Not available.

Long term exposure

Potential immediate effects : Not available.

Potential delayed effects : Not available.

Potential chronic health effects

: Not available.

General : Causes damage to organs through prolonged or repeated exposure. Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels.

Carcinogenicity : No known significant effects or critical hazards.

Mutagenicity : No known significant effects or critical hazards.

Teratogenicity : No known significant effects or critical hazards.

Developmental effects : No known significant effects or critical hazards.

Fertility effects : No known significant effects or critical hazards.

[Numerical measures of toxicity]

Acute toxicity estimates

| Chemical Name | Oral LD50(mg/kg) | Dermal LD50(mg/kg) | Inhalation LC50 |
|---------------|---------------------|-----------------------|--------------------|
| | | | |

Safety Data Sheets

| | | | |
|---|--------|--------|-----|
| Product | 1846.8 | 2301.7 | N/A |
| (5-ethyl-1,3-dioxan-5-yl)methyl acrylate | 2500 | N/A | N/A |
| 1-vinylhexahydro-2H-azepin-2-one | 1114 | 1700 | N/A |
| 2-(2-ethoxyethoxy)ethyl acrylate | 1106 | 400 | N/A |
| Propylidynetrimethanol, ethoxylated, esters with acrylic acid | 2000.1 | N/A | N/A |
| phenyl bis(2,4,6-trimethylbenzoyl)-phosphine oxide | 2500 | 2500 | N/A |
| hexamethylene diacrylate | 5000 | 3620 | N/A |

12. Ecological Information

Handling is noted because it might influence the environment when leaking and abandoning it. Especially, note that the product doesn't flow directly to ground, the river, and the drain ditch.

Ecotoxicity : Toxic to aquatic life. Toxic to aquatic life with long lasting effects.

Persistence and degradability : No data available.

Bioaccumulation : No data available.

Mobility : No data available.

Other adverse effects : No data available.

13. Disposal Considerations

[Waste treatment methods]

Disposal Methods : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction.

Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact

Safety Data Sheets

with soil, waterways, drains and sewers.

14. Transport Information

Check a thing without a leak in a container.

Perform prevention of collapse of cargo surely.
